Introduction to Risk Management

LEARNING OUTCOME

By the end of this course, students will develop a working knowledge of the principles and practices of applying risk analysis and control in a project environment.

AUDIENCE

This course is designed for all team members within a project environment that need to understand the principles of risk management. This course helps instil a common fundamental understanding of how to manage risk.

COURSE CONTENT

Students will use a range of practical examples to learn about:

- ✓ Risk Management Terminology;
- ✓ Why Manage Risks?
- ✓ What is a Risk Management Plan?
- ✓ Following the Risk Management Process;
- ✓ Different Risk Attitudes;
- ✓ Threats versus Issues;
- ✓ Risk Registers;
- ✓ Risk Treatments; and
- ✓ Monitoring and Controlling Risks.
