PRAXIS™

Framework

Foundation

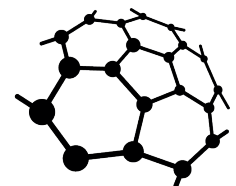

LEARNING OUTCOME

The Foundation Course will enable students to:

- Develop a knowledge of the characteristics and context of a project and a programme and the benefits of effective project and programme management;
- Understand the purpose of the Praxis Framework, the project and programme roles, documents and functions, and their use in the Praxis process models;
- Develop a knowledge of the goals and activities within the Praxis Frameworks process models and how they interface;
- Understand the importance and goals of interpersonal skills in the project and programme environment, and their recognised models; and
- Be fully prepared to undertake the Foundation exam.

AUDIENCE

- Individuals interested in a career in project or programme management.
- Individuals pursuing the Praxis Framework Practitioner certificate.
- Practising project or programme managers.
- Project or programme team members wishing to become managers.

Praxis™

COURSE CONTENT

The Foundation Course covers:

- ✓ The context of portfolio, programme and project (P3) management;
- ✓ The core elements of Praxis - knowledge, method, competency, capability;
- ✓ Integrative functions - planning, control, assurance, business case, information, organisation and stakeholders;
- ✓ Delivery functions - scope, schedule, risk, finance, resources and change;
- ✓ P3 management processes; and
- ✓ Interpersonal skills.

COMPLETION

If students successfully pass the exam, they will be issued with APMG Praxis Certification and Digital Badge
