# PRAXIS™

# Framework

# Practitioner

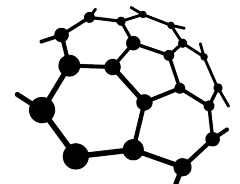

## LEARNING OUTCOME

The Practitioner Course will enable students to:

- Understand the relationships between the roles, documents, functions, techniques and processes;
- Apply the roles, functions, techniques and processes to a project and programme scenario;
- Create and assess project and programme documents for a given scenario; and
- Be fully prepared to undertake the Practitioner exam.

## AUDIENCE

- Individuals interested in a career in project or programme management.
- Individuals pursuing the Praxis Framework Practitioner certificate.
- Practising project or programme managers.
- Project or programme team members wishing to become managers.

# Praxis™

## COURSE CONTENT

The Practitioner course is an examination preparation course that focuses on applying the Praxis Framework to prepare candidates for the Practitioner examination. The course content includes:

- ✓ The relationships between the roles, documents, functions, techniques and processes;
- ✓ How to apply the roles, functions, techniques and processes to a project and programme scenario; and
- ✓ How to create and assess project and programme documents for a given scenario.

## COMPLETION

If students successfully pass the exam, they will be issued with APMG Praxis Certification and Digital Badge
